

# Classroom Arrangement Ideas

Steve Alley

Arrange the room to make it visually interesting. Use shelves, table arrangements, and beanbag chairs to “invite” the children to participate. “Open” and “close” areas according to the classroom schedule.

## Classroom Adventure Ideas

Build spaces to “go into.” The spaces inspire imagination and exploration. The spaces could be large enough for a couple of children, or for the whole group.

## Classroom Lighting Ideas

Use lamps and light ropes to highlight areas of emphasis or centers. Turn lights on and off to indicate that the area is “open.”
